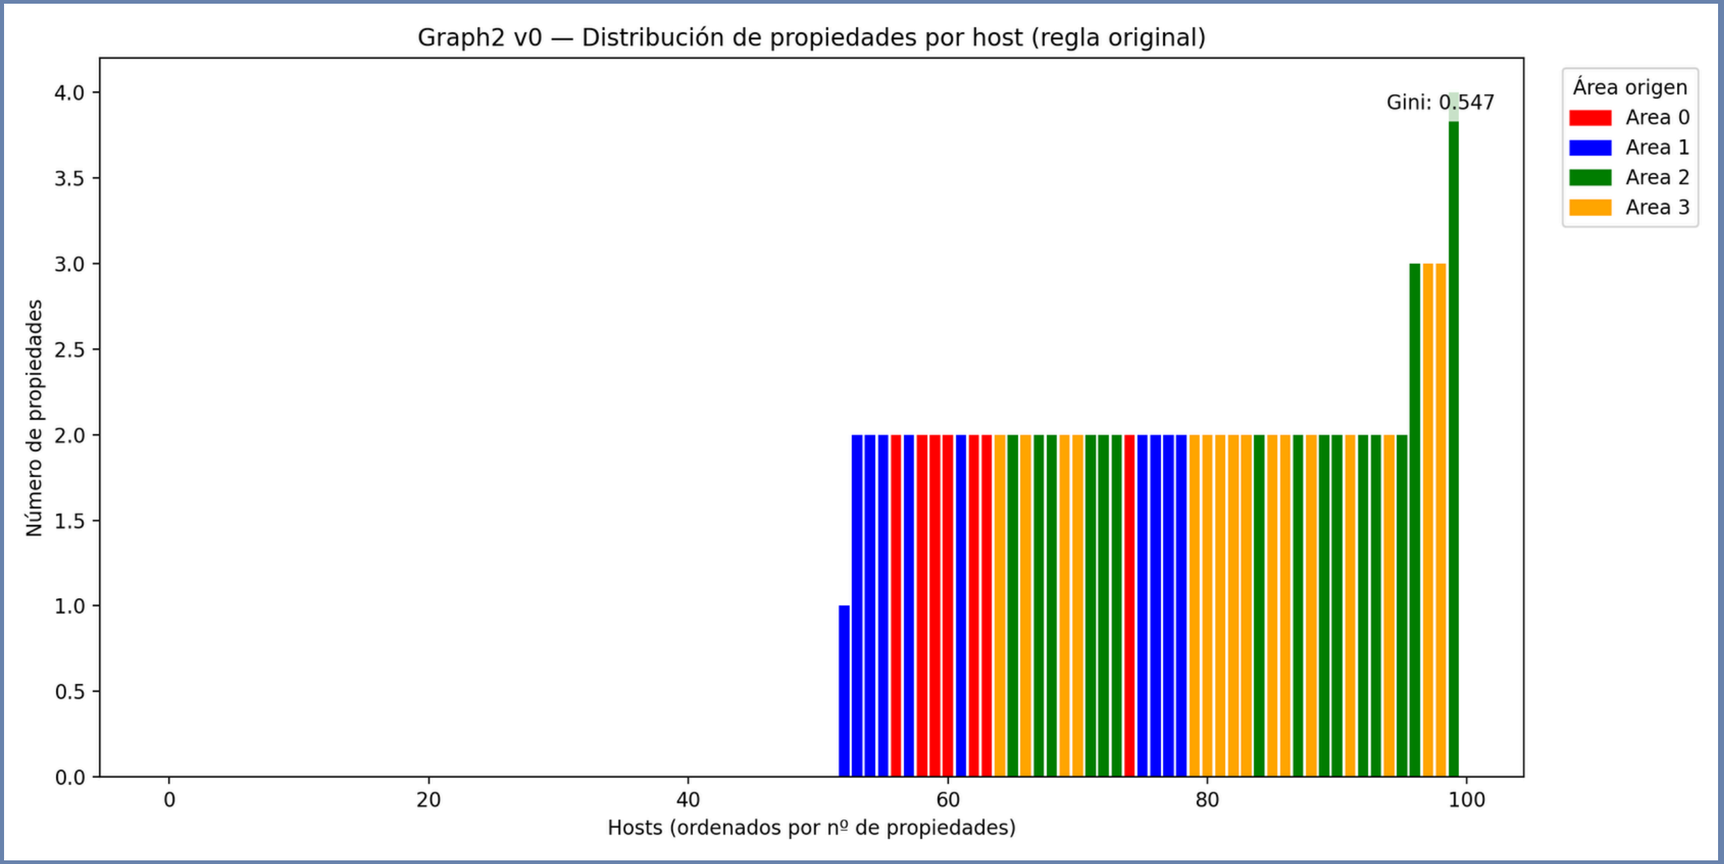
# FINAL PROJECT

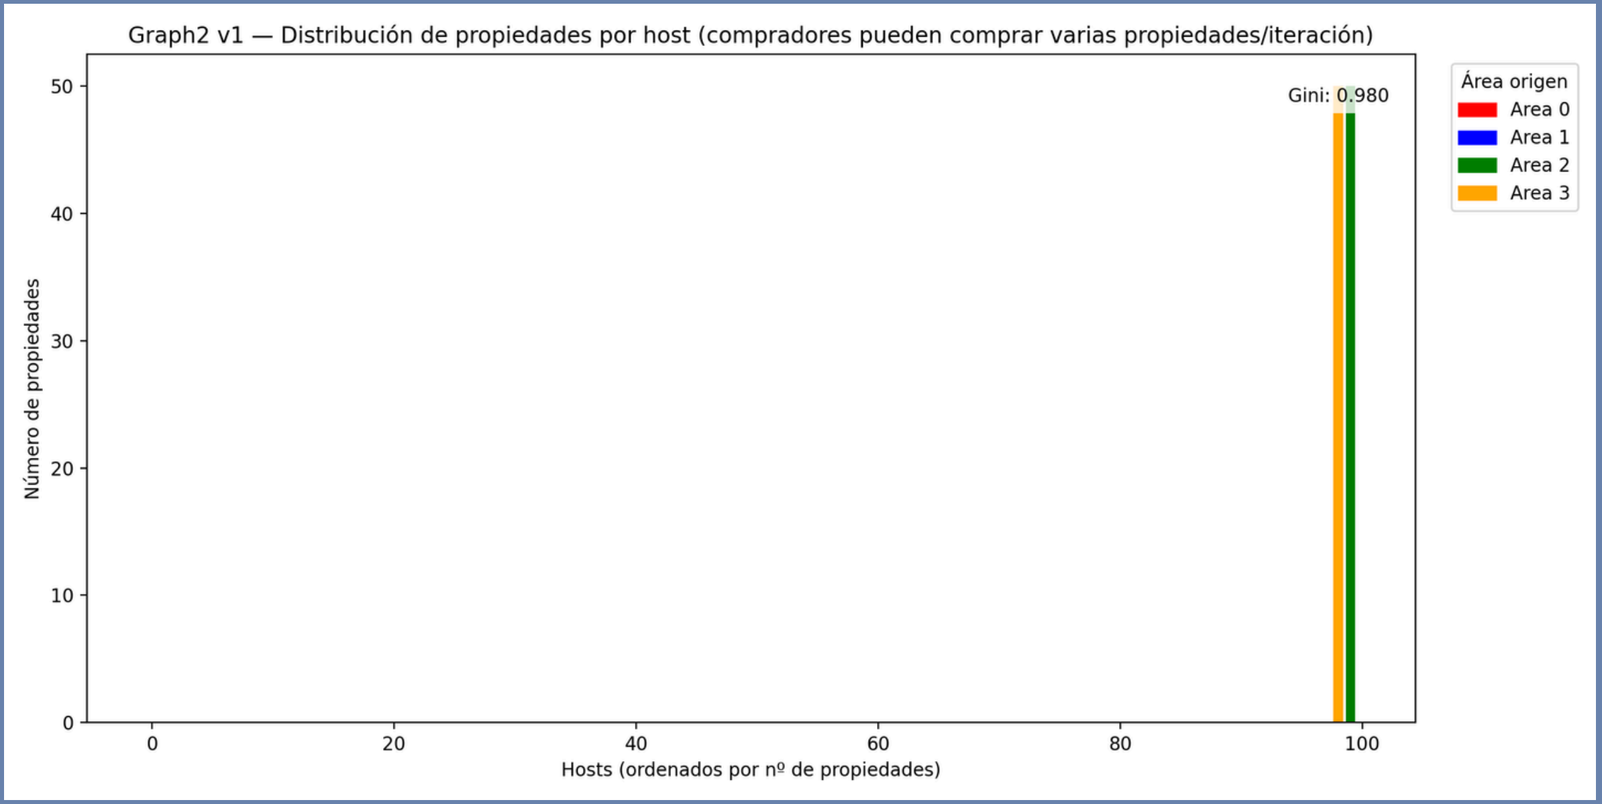
Nerea De Asís, Hugo Hernández, Alexia Medina, Anna Salido

# Additional graph from Part 1- Member 3



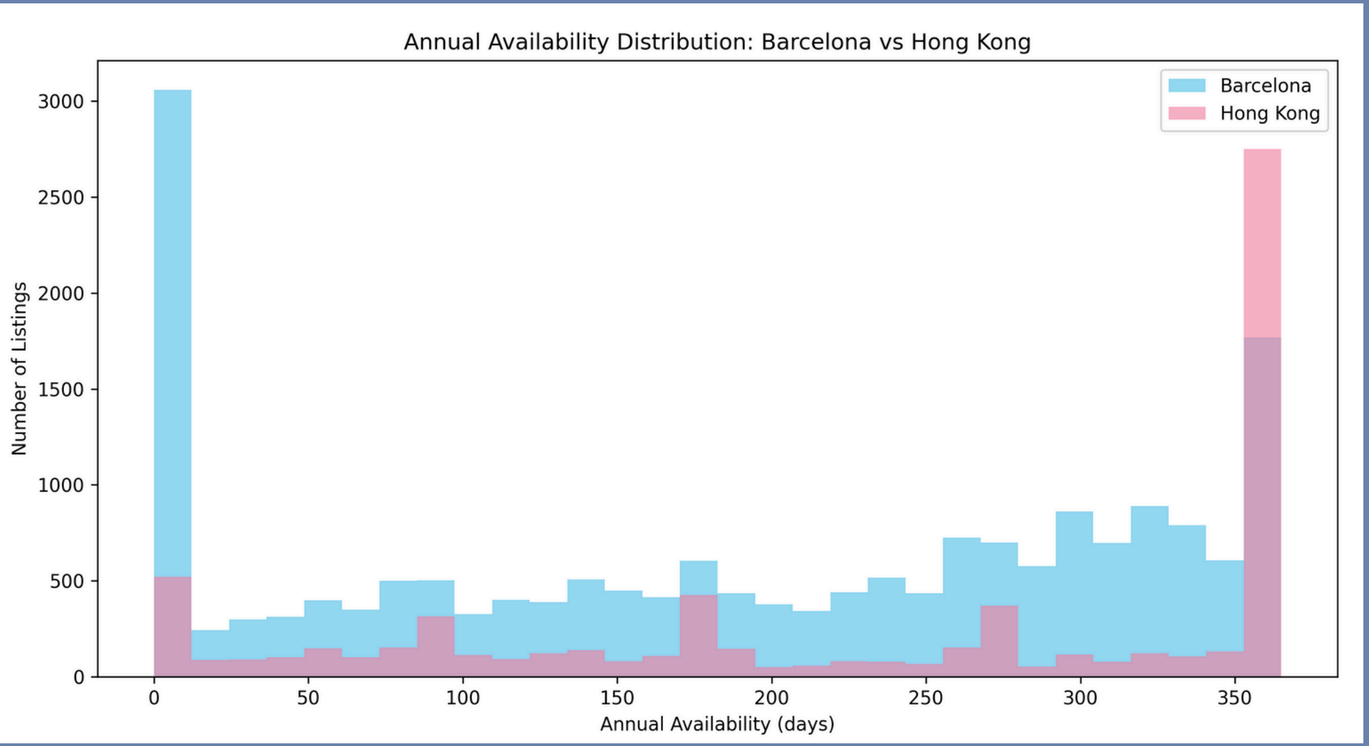
- The graph should be self-explanatory, with clear labels and annotations if needed.
- During the presentation, you will interpret this graph

# Rule Change Snippet – Member 4



- Include the code snippet showing the original and modified version of one rule.
- Explain why you decided to change it and what effect you expected.
- You may include graph2_v1.png to support your explanation (optional).

# Analysis - Annual Availability



**Barcelona vs Hong Kong**

- 0 days = fully booked
- 365 days = never booked

- Hong Knog → low-demand listings
- Barcelona → more high-demand listings

- Market dominated by pros (Barcelona)
- Many failing listings (Hong Kong)

# THANK YOU

FOR YOUR ATTENTION
